Not Much Credit Coming to Them,  
Jud Tunkins says he knows two  
men, and maybe three, who bragged  
about not being profiteers, simply be-  
cause they never had a good chance.

## TORTURED TEXAS WOMAN WRITES

Standing On Her Feet Torture to  
This Lady. Had to Ride  
Everywhere She Went, Until  
Cardui Brought Relief.

McKinney, Texas.—Mrs. A. B. Sto-  
vall, of this place, writes: "Some  
time ago I was in a critical condi-  
tion. We only lived two squares from  
town, yet I wasn't able to walk the  
two squares.

I had to ride everywhere I went  
and suffered at that, but not so much  
as when I tried to walk. Standing  
on my feet was torture.

My greatest suffering was in my  
right side. It was so sore and I felt  
if I stepped down or jarred myself  
the least bit I could not stand it,—  
so just walked mostly tiptoe. This  
kept up until I was just about dis-  
couraged and decided I had best try  
something else.

Someone told me of Cardui, and  
where it had benefited cases similar  
to mine. I felt at least it would not  
hurt to give it a trial.

After my first bottle I felt better—  
there was less pain and soreness in my  
side.

After my third bottle of Cardui I  
was well and have been ever since."  
Cardui may be just what you need.  
Try it—Adv.

## BOSTON'S OLD STATE HOUSE

Famous Building, Restored by Patri-  
otic Society, Is Now Preserved as  
a Revolutionary Relic.

The old State house in Boston was  
erected in 1748. In early days the  
first floor was used as the Merchant's  
exchange, and the second story as the  
meeting place of the governors of the  
province and the royal council. A few  
feet from the eastern porch occurred  
the Boston massacre on March 5, 1770.  
In 1780 Washington reviewed from  
this building a procession in his honor,  
and in 1835 William Lloyd Garrison  
took refuge there to escape from the  
mob that had broken up an anti-slav-  
ery meeting and threatened his life.  
In later years the building was turned  
into business offices and was so much  
altered, inside and outside, as almost  
to destroy the original architectural  
effect. In 1881 it was restored by the  
city at the request of the public-spir-  
ited citizens, and is now in the custody  
of the Bostonian society, which occu-  
pies it. The rooms, including the old  
council chamber and hall of representa-  
tives, contain a collection of relics  
and paintings of revolutionary times.

### Sure to Miss It.

Mr. Styles—Wasn't that Mrs. Myles  
that just called?

Mrs. Styles—Yes, it was, and I'm  
wondering to see if she comes back.

"What would bring her back?"

"Why, she left her chewing-gum  
under the arm of one of the parlor  
chairs!"

### Quick Change Artist.

Our idea of an independent man is  
one who can pin up the baby's outfit  
as quick as he can change tires on  
his motorcar.—Dallas News.

## It's the wise house- wife who serves

# Postum Cereal

instead of coffee. For where  
coffee sometimes disagrees  
and leaves harmful after ef-  
fects, Postum is an absolutely  
healthful cereal drink. Made  
of roasted wheat blended with  
a wee bit of molasses.

The extraordinary flavor of  
this beverage resembles that  
of the finest coffee—pleasing  
to particular tastes.

Two sizes, usually sold at 15c and 25c.

Made by

Postum Cereal Company, Battle Creek, Michigan

## The KITCHEN CABINET

You poor, despised, humble plant!  
Why is it some will never grant  
Your many virtues, tho' they can't  
Forget your smell?  
Your uncomplaining, patient men  
Has touched my heart with sorrow  
Near;  
The tears I've shed o'er you, I  
wean,  
Would fill a well!

### THE ONION.

The odoriferous bulb is one of our  
choice flavored vegetables and a touch  
of onion in many dishes  
gives just the appetizing  
flavor needed. The onion  
is also wholesome served  
as a main dish.

**Onions With Cheese.**—  
Cook until tender a half  
dozen even-sized onions.  
Drain and place a layer  
in a buttered baking  
dish, cover with a well-seasoned white  
sauce and sprinkle generously with  
a rich strong cheese. Cover with an-  
other layer of onions and sauce and  
cover with buttered crumbs. Bake un-  
til the crumbs are brown. The se-  
cret of this delicious dish is having  
the cheese between the layers pro-  
tected from the heat, but hot enough  
to melt it.

**Cream of Onion Soup.**—Heat a quart  
of milk, add two tablespoonfuls of  
butter and two of flour cooked to-  
gether and two cups of cooked onions.  
Mash and put through a puree strain-  
er. Season with salt, cayenne and  
sprinkle with minced parsley and a  
bit of grated cheese.

**Onion Sandwich.**—Chop a half cup-  
ful of Spanish onion, add olive oil,  
salt, pepper, vinegar and mix to the  
consistency for spreading. Place on  
well-buttered slices of bread and serve  
for lunch. Sunday night, after church.  
One avoids going abroad among  
people after eating fresh onions. When  
it is necessary eat a sprig of parsley  
which will absorb the odor to a great  
extent.

**Onion Salad.**—Slice a Spanish onion  
quite thin, cover with French dressing,  
adding a teaspoonful of tomato catsup,  
salt and cayenne to the oil and vine-  
gar. Sprinkle with minced parsley  
and serve. One large onion will serve  
several.

During the "flu" epidemic phys-  
icians, who were most successful, used  
a chopped onion poultice on the chest  
of the patient—a remedy most ef-  
fective but not especially pleasant to  
take.

Onion syrup made by baking onions  
and sugar is one of the best of cough  
cures.

The fragrance of a thought may  
rise  
To nobler life and subtler guise  
As still as a violet by the brook—  
A thing too rare to set in books.  
Or cage in song.  
—Richard E. Day.

### EASY LUNCHEON DISHES.

A dish or luncheon which is not too  
hearty but sufficiently sustaining will  
be found in the  
following:

**Curried Salmon.**—Chop a  
small onion fine  
and fry brown in  
one tablespoonful  
of butter. Mix  
one teaspoonful  
of curry powder with a pinch of salt. Stir  
into the butter. Add slowly one cup-  
ful of hot water, stirring briskly.  
When the sauce is thick add one cup-  
ful of flaked salmon and cook until  
the whole is thoroughly hot.

**Salt Fish Hash.**—Use salt mackerel,  
herring or codfish left from breakfast.  
Mix with an equal quantity of cold  
mashed potato and warm in the frying  
pan with a little butter, adding a bit  
of grated onion for seasoning. The  
fish and potato may be made into flat  
cakes and fried brown in butter, or the  
hash may be baked in ramkins, filled  
two-thirds full and an egg broken into  
each dish. Bake in a hot oven until  
the egg is set.

**Breaded Tongue.**—Slice cold cooked  
tongue very thin; dip the slices in  
beaten egg, then in bread crumbs and  
cook in deep fat. Serve with tomato  
sauce.

**Stew of Oysters and Celery.**—Dis-  
solve a teaspoonful of beef extract in  
two cups of boiling water. Add two  
cups of milk, a tablespoonful of  
butter, salt, pepper and mace for sea-  
soning. Add a cupful of finely cut  
celery and simmer until the celery is  
tender. Add a cupful of oysters, par-  
boiled in their own liquor, and half a  
cupful of cracker crumbs. Bring to a  
boil and serve at once.

**Baked Sardines.**—Skin twelve large  
sardines; bring to a boil in a little wa-  
ter, reserving the oil which was  
drained from the fish. Add a cupful  
of water, a teaspoonful each of wor-  
cestershire, made mustard and vine-  
gar, with salt and pepper to taste.  
Arrange the fish on a platter which  
will bear the heat of the oven, and  
bake. When the sauce is boiling hot  
add a beaten egg yolk and stir until  
thick. Pour the sauce over the fish  
and serve at once.

**Unusual Preservative.**  
The leaves of the fern plant, which  
grows almost everywhere, are excel-  
lent preservatives for picking food,  
fruit and even meat. Potatoes packed  
in fern leaves are as fresh in the  
springtime as when they were first  
dig in the winter.

### Ingenious Picture.

There is in one of the continental  
picture galleries a painting called  
"Cloudland." At first sight it looks  
like a huge, repulsive dash of con-  
fused color, without form or com-  
mon sense. As you walk toward it, it  
proves to be a mass of exquisite little cherub  
faces like those at the head of the can-  
vas in Raphael's "Madonna San Sisto."

**Largest Deer Park.**  
Copenhagen has the largest enclosed  
deer park of any city in the world.  
Its area is about 4,200 acres.

## A LAST WORD ABOUT CHILDREN'S CLOTHES

"Finis" is written by the manu-  
facturers of children's clothes, so far  
as the winter season's offerings are  
concerned. They must busy them-  
selves now for spring, even though  
winter has just begun, and have ready  
in January dresses, made of cotton  
materials, because the new cotton fab-  
rics are put on display at that time.  
January brings a demand for styles as  
well as materials, and for ready-made  
children's clothes. Foresighted moth-  
ers prefer to get the children's spring  
sewing out of the way early and the  
first two months in the year find  
them engaged with children's clothes  
and undergarments—events which  
store all over the country prepare for.  
Therefore the little coat for a kinder-  
gartener and the woolen dress for a  
little school girl, presented here,  
make their bow and then their exit.  
The last to join a host of winter com-  
panions. Their places are soon to be  
filled by harbingers of spring—frocks  
of glingham, chambray and the like.  
A heavy, double-weave cloth, plain  
on one side and plaid on the other, is  
the sort of material to choose for a

## RIBBONS FORECAST CHRISTMAS TIME

"Like bees about the honeysuckle,"  
women have begun to swarm about the  
ribbon counters in the big stores,  
where there are so many beautiful  
dress accessories on display. Christ-  
mas time is harvest time for the rib-  
bon department and already the stores  
are showing enticing articles made of  
ribbons in order to point the way to  
using them. There are whole flocks of  
gay ribbon hair bows for the younger  
generation, and there are dance caps  
and breakfast caps for young and old,  
corsage flowers and bouquets, innum-  
erable bags for all sorts of purposes,  
and lovely ribbons and sashes. Vestees  
and hat crowns suggest uses for the  
richest broadened ribbons and many shop-  
ping bags are made of these.

Ribbons for lingerie have a story of  
their own which it is important to  
know at Christmas time as they fur-  
nish the most acceptable and least  
costly of ribbon gifts. And there are  
the pretty neckwear fancies and the  
house-furnishing pieces, all meriting  
attention of the Christmas shopper.

But it is not possible to describe all  
of these ribbon articles at one time. In  
the group of dress accessories shown  
here there appear three corsage orna-  
ments, a dance cap and a party bag,  
any one of them a gift that any woman  
will enjoy. Of the corsage orna-  
ments one is a rose made of dark red  
satin ribbon; the other rose is of vel-  
vet ribbon in rose pink and the small  
cluster of little roses in several light  
colors forms a little bouquet that will  
find a place for itself in many toilettes.  
The dance cap is not difficult to

make. Millinery wire and the advice  
of the milliner are needed for it and  
are usually forthcoming when the ma-  
terials are bought. Narrow satin or  
tulle ribbon, gathered with scant  
fullness along one edge, is sewed in  
rows to form the crown. Taffeta has  
stiffness enough to stand up well  
enough, but satin may need a sup-  
porting crown of crinoline. The trim-  
a scant full of gold or silver lace—and  
the crown are sewed to a silk-covered  
bonnet wire that encircles the head,  
and a very fine silk-covered wire is run  
in the lace full near its edge. A small  
spray of ribbon or millinery flowers  
and a little cape of the lace falling at  
the back complete this fascinating  
dance cap.

Ribbons, wide and narrow, with lace  
and net are used for breakfast caps  
and their most ordinarily no wire sup-  
port. Small ribbon or ribbon flowers,  
rosettes, bows and ends embellish  
them.

To make ribbon roses one must have  
heavy wire for the stems and millinery  
foamings. The petals of ribbon are  
folded to the stems with the wire and  
the stems finally wound with narrow  
green ribbon.

*Julia Bottomly*

Drizzling Shoulders for Spring.  
Drizzling shoulders are sponsored by  
French couturiers for spring.

Headdresses Again.  
Headdresses are back in favor and  
many and intricate are some of those  
seen. The band of ribbon, silk, pearls,  
or even the spangles worn around the  
head low over the eyebrows seem  
most universally becoming. With  
feathers, paradise or ostrich, tucked  
in at a becoming place and angle, these  
hair ornaments may be as simple or  
gorgeous as the individual desires.

## PUBLIC HIGHWAYS

### ENTRANCE ROADS FOR FARMS

Engineers of Bureau of Public Roads  
Give Advice on Application of  
Bituminous Material.

(Prepared by the United States Depart-  
ment of Agriculture.)

Owners of large farms and rural  
estates seeking a more satisfactory  
type of entrance road have applied  
to the bureau of public roads of the  
United States department of agricul-  
ture for advice regarding the applica-  
tion of bituminous material on main  
entrance and much-traveled farm  
lanes.

The bureau's engineers point out  
that such applications may be made  
successfully on any farm road which  
has already been constructed of stone,  
gravel, or other similar material, and  
is in a thoroughly compacted and rea-  
sonably smooth condition. A coal-tar  
preparation applied cold, or an asphaltic  
oil, can be used and if applied by  
the farm employees, the cost should  
not exceed seven or eight cents a  
square yard for materials. The com-  
pacted gravel or stone road should be  
thoroughly cleaned of dust and the  
bitumen applied with ordinary sprin-  
kling pots from which the perforated  
nozzle has been removed and the spout  
carefully flattened into a symmetrical  
rectangular opening about one-quarter

Surface Treatment of Macadam Road  
With Bituminous Material and Stone  
Chips.

of an inch wide, so that the material  
may be poured in a broad, flat stream.  
If a large amount of work is to be  
done, a specially designed pouring  
can may be purchased of dealers in  
road equipment. Care should be  
taken to have an even distribution,  
and the quantity applied should be  
approximately one-half gallon to a  
square yard of road surface. After  
applying the bituminous material,  
clean gravel or stone chips should be  
spread evenly over the surface, and  
if possible, rolled with a lawn or field  
roller. Where gravel or chips are not  
available, clean, coarse sand will serve  
as covering material. It should be  
spread in sufficient quantity to pre-  
vent the bituminous material from ad-  
hering to tires of passing vehicles.  
Attention is called to the fact that  
this treatment should not be made  
where drainage from the stables or  
barns will flow over it. Where mud-  
holes are likely to form around hitch-  
ing posts or at stable entrances, if a  
more durable pavement is desired, a  
section of concrete slab should be  
laid.

### ROAD OUT OF SOLID GRANITE

Will Lead From Estes Park to Glen  
Lake, Connecting With Lincoln  
Highway.

In the Rocky mountains, Colorado,  
aided by the federal government, is  
building eight miles of road out of  
solid granite. The road, which will  
lead from Estes Park in the Rockies  
to Glen Lake, connecting with the Lin-  
coln highway and forming a part of  
the transcontinental highway, will  
bring Switzerland to America. The  
road will cost, when completed, more  
than \$25,000 a mile.

### BIG ROAD PROGRAM PLANNED

Alabama to Issue \$25,000,000 in Bonds  
to Match Federal Appropriation  
for Highways.

Plans to issue \$25,000,000 in bonds  
to match a similar federal appropriation  
for building roads in Alabama  
were set on foot at a meeting of the  
Alabama Highway Improvement asso-  
ciation. The project includes a three-  
mill levy by counties for maintenance.  
A constitutional amendment to au-  
thorize this project will be asked of  
the next legislature.

### Country's Urgent Necessity.

The most urgent necessity of our  
country in the immediate future is  
good roads, permanent roads that can  
be used 12 months in each year.

### Bond Issues Voted.

Bond issues aggregating many mil-  
lions of dollars for new highway con-  
struction have been voted by more than  
a score of states this year.

### Prepare for Next Year.

Now is the time to get ready for  
next year.

### Garden is Good Asset.

A good vegetable and small fruit  
garden has been an excellent asset  
this year. There should be more home  
gardens.

### Corn-Ear Worm.

The corn-eat worm does a vast  
amount of injury each year to several  
garden and field crops.

### Place for Root Crops.

Put carrots and other similar root  
crops in dry sand for winter keeping.  
This will prevent wilting.

## YOU WOULDN'T TRY TO TAME A WILD-CAT

Mr. Dodson Warns Against Use of  
Treacherous, Dangerous  
Catelme.

Catelme salivates! It's mercury.  
Catelme acts like dynamite on a slug-  
gish liver. When catelme comes into  
contact with your bile it crashes into  
it, causing cramping and nausea.

If you feel bilious, headachy, consti-  
pated and all knocked out, just go to  
your druggist and get a bottle of Dod-  
son's Liver Tonic for a few cents which  
is a harmless vegetable substitute for  
dangerous catelme. Take a spoonful  
and if it doesn't start your liver and  
straighten you up better and quicker  
than nasty catelme and without mak-  
ing you sick, just go back and get your  
money.

If you take catelme today you'll be  
sick and nauseated tomorrow; besides,  
it may salivate you, while if you take  
Dodson's Liver Tonic you will wake up  
feeling great, full of ambition and  
ready for work or play. It's harmless,  
pleasant and safe to give to children;  
they like it—Adv.

### He Should Know.

"Here's a charge for a call lasting  
half an hour on our telephone," said  
the lawyer to his wife.

"Yes, dear. That was my call. I  
was asking a friend of mine a ques-  
tion," replied the wife.

"And did it take half an hour to ask  
a question?"

"Yes, dear. You see, it was one of  
those hypothetical questions."

## GIRLS! A MASS OF WAVY, CLEAMY BEAUTIFUL HAIR

Let "Danderine" save and  
glorify your hair

In a few moments you can trans-  
form your plain, dull, flat hair. You  
can have it abundant, soft, glossy and  
full of life. Just get at any drug or  
toilet counter a small bottle of "Dan-  
derine" for a few cents. Then moisten  
a soft cloth with the Danderine and  
draw this through your hair taking one  
strand at a time. Instantly, yes,  
immediately, you have doubled the  
beauty of your hair. It will be a mass,  
so soft, so lustrous, so fluffy and so easy  
to do up. All dust, dirt and excessive oil  
is removed.

Let Danderine put more life, color,  
vigor and brightness in your hair. This  
stimulating tonic will freshen your  
scalp, check dandruff and falling hair,  
and help your hair to grow long, thick,  
strong and beautiful—Adv.

### Nationalized Pharmacies a Failure.

Reports received from Europe by  
members of the trade in this city are  
said to indicate that the nationaliza-  
tion of pharmacies in Hungary has  
not come up to expectation. From  
statements made by state officials that  
already the deficit amounts to 1,000-  
000 crowns. Further than this, there  
are many complaints about the slow-  
ly and indifferent manner in which  
the work is being done as contrasted  
with the former methods in vogue.—  
New York Post.

### "CALIFORNIA FIG SYRUP" IS CHILD'S LAXATIVE

Look at tongue! Remove poisons  
from stomach, liver and  
bowels.

Accept "California" Syrup of Figs  
only—look for the name California  
on the package, then you are sure your  
child is having the best and most harm-  
less laxative or physic for the little  
stomach, liver and bowels. Children  
love its delicious fruity taste. Full  
directions for child's dose on each bot-  
tle. Give it without fear.  
Mother! You must say "California."  
—Adv.

Consolation for His Honor.  
Maud Muller refused the judge.  
"At any rate it will result in an un-  
blessed judiciary," we remarked.

Nothing will take the fun out of a  
fellow quicker than for the teacher to  
step up behind him.

Many a girl's distant manner may  
be traced to the fact that she had  
dinner.
